

OGDEN GAINS BY S. P. RATES

Arrangement for Excursion to Coast to Benefit Local Gateway

"Utah, Idaho, and Montana will benefit by the new excursion rates put in effect by the Southern Pacific to California points," said F. E. Butters, assistant passenger and traffic manager of the Southern Pacific, who was in Ogden yesterday conferring with Willard G. Wilson, traveling agent for the S. P. with headquarters at Ogden. Mr. Butters went north last evening. He will return to Ogden tomorrow and continue on to San Francisco.

EXPECT MANY TOURISTS.

Mr. Butters said that the Southern Pacific is preparing to handle an unusual flow of tourists this year through Ogden. He said:

"We are trying to give the people of Utah, Idaho and Montana the same excursion fares to Los Angeles and San Francisco that apply over any other route, from Denver, Missouri River points and the east."

"The same excursion fares have always applied to Los Angeles and San Francisco over all direct routes which means that both way fares over the Southern Pacific to Los Angeles will be the same as via any other route. For some years in particular and since federal control the rates over the Southern Pacific to Los Angeles both ways from Ogden have been higher than over other routes. The Southern Pacific, believing that Ogden should have as favorable treatment in the matter of passenger fares as Denver, Missouri points and eastern points, decided this year that its fare from Ogden to Los Angeles and return would be the same as over any other route, and because Ogden is the local point on the Southern Pacific, the roads could not be prevented from accomplishing this. But Salt Lake and from the large territory north, east, west and south of Ogden the Denver & Rio Grande Western railroad and the Union Pacific system declined to join in the rate."

MAKE ARRANGEMENTS.

"The Southern Pacific has therefore arranged to have people from this outside territory purchase a local ticket to Ogden, taking a receipt for the local ticket, which on presentation at the Ogden Union depot will entitle the passenger upon payment of the difference to the through rates from the starting point to secure a ticket from Ogden to Los Angeles and return to the original starting point."

"As the rate over the circuit one way over the Southern Pacific to Ogden is the same from Denver, Missouri River and other points, the Southern Pacific was desirous of according the same basis of fare to the people of Utah. The Union Pacific, however, would not join upon the same basis as they do from Denver, Missouri River and the east."

— don't pass up this splendid neckwear—just because the price appears exceptionally low.—the reason behind this money-saving price is our ability to buy a great quantity from one of the best makers in the country—at price which even astonished us.

WEBER NORMAL TO GRADUATE 122; BACCALAUREATE SERMON TO BE DELIVERED ON SUNDAY

Webster Normal college will graduate a class of 122 this year, it was announced today by President Joel E. Ricks. There will be 15 college graduates and 107 from the high school courses.

President Ricks said more names may be added if students now under consideration satisfactorily complete their work.

Stephen L. Richards, commissioner of education of the L. D. S. church, schools will deliver the baccalaureate sermon in the college auditorium Sunday evening, beginning at 8 o'clock.

COMMENCEMENT WEDNESDAY

The thirty-fourth commencement exercises will be held Wednesday in the auditorium. Presentation of diplomas will be made by President D. O. McKay, of the college board.

Thursday the alumni banquet will be held at the college and inspection of exhibits of the domestic arts and manual training departments will be conducted.

All members of the graduating class are requested to be at the college Sunday evening at 7:30 o'clock for final instructions, President Ricks said.

JEWISH BOYS TO ATTEND SERVICES

E. Rosenberg, who is chairman of the Jewish section of the Boys' Week activities, announced today that all Jewish boys are invited to attend the services in the Jewish Synagogue tonight.

"While we are planning to have a service devoted especially to the boys on Sunday," says Chairman Rosenberg, "this service tonight is preliminary to that and we hope that every Jewish boy in Ogden will attend."

The services are to be held at 8 o'clock this evening at the synagogue on Grant avenue.

Rabbi M. Freedman will conduct the services.

According to one expert in physical culture, a nation whose men excel in women in beauty is faced with disaster.

HIS BOAST FAILS TO HOLD; FINED \$60

"All right, if I'm drunk take me over a card in the morning and he'll turn me loose."

This was the statement of R. D. Allen just prior to his arrest; William Brown, merchants' policeman, testified at the hearing of the case in the city court this morning. The jury found Allen guilty and City Judge D. R. Roberts sentenced him to pay a fine of \$60 and court costs or serve 60 days in jail.

Allen was arrested on the night of May 8 at the intersection of Twenty-fifth and Hudson avenue and on the following morning when arraigned in the city court demanded a jury trial and stated that he would conduct his own case.

The jury, accepted by each side this morning without examination, was composed of A. W. Bowman, Frank Ballard, L. Wheelwright, and James Leishman, Jr.

J. Thomas, charged with being drunk, pleaded not guilty and the

hearing of his case was set for May 15. Bail was fixed at \$100.

Louise Johnson, charged with being drunk, pleaded guilty and was sentenced to pay a fine of \$50 or serve 30 days in jail.

COLD SPELL KEEPS RIVER LEVELS DOWN

With cold temperatures again predicted for tonight in the northern section of the state, Ogden is again believed immune from any flood dangers for a few days, at least. Both streams are reported to have fallen from three to five feet within the last three days, which brings the waters to near the winter levels.

The danger of flood, however, is not believed over by officials, who feel that an unusual period of warm weather following the cold spell would cause immediate rising of waters to the danger point. There is an abundance of snow still in the mountains which will probably prove a greater source of water than in ordinary years when the melting first begins, the officials said.

Frost is predicted for tonight by the forecast of the United States weather bureau, with fair skies. Yesterday's maximum temperature was 60 degrees with a minimum last night of 36 degrees.

BROWN SUED FOR \$5198 DUE ON NOTE

Suit has been filed in the district court by the Intermountain Association of Credit Men against W. A. Brown, of Ogden, seeking to recover \$5198.78, alleged to be due on a promissory note. The note was executed between deWitt Brother and Brown, and has now been assigned to the plaintiff for collection, it is alleged. Judgment is sought.

She Wanted to Live at Seaside; He Wants Divorce

Testifying that his wife has not lived with him day since their marriage in New York more than two years ago, Frank B. Theall has been granted a decree of divorce in the district court from Sarah Theall. Mr. Theall declared on the witness stand that while working as a railroad engineer in the eastern states, he wedded, but that his wife refused to reside with him near his point of employment and insisted upon living at a seaside resort.

Mr. Theall said that when he came west his wife refused to accompany him. The court granted the divorce decree by default. There were no children.

FIVE PHONES CUT OUT AT CITY HALL

Five private telephones were eliminated yesterday at the city hall and in other city departments and a switchboard installed through which all city commissioners and Mayor Francis may be reached.

With the switchboard in action, it is but necessary to call 269 for Mayor Francis, Commissioner Arthur F. Larson or Commissioner O. B. Madison.

The phones removed yesterday were in the offices of Commissioners Larson and Madison, in the city repair shop the waterworks shop, blacksmith shop and the city reservoir.

It was said this morning that the move was preliminary to the campaign of economy to be put in practice at the city hall.

A wireless tower at Tokio, Japan, 600 feet high, of reinforced concrete, is the highest one-piece structure in the world.
